PRODUCT OVERVIEW

6" x 8" ultra-compact flat active subwoofer

This ultra-compact active under-seat subwoofer is the ideal solution for adding deep bass to existing vehicle audio systems quickly and efficiently. The sturdy die-cast aluminum enclosure in the distinctive GZ design combines a slim profile with excellent everyday usability, allowing installation even in very limited spaces. Thanks to its powerful amplifier module, adjustable low-pass crossover and bass boost function, the subwoofer can be optimally tuned to both the vehicle and personal listening preferences. The high-level input with automatic turn-on function further simplifies integration into OEM systems, making the GZCS SW-600A a particularly practical upgrade solution.
