PRODUCT OVERVIEW

46 cm / 18" High Power Subwoofer

The GZPW 18C is a no-compromise 46cm / 18" high-power subwoofer designed for extreme bass applications. Its rigid carbon fiber cone, combined with the ConeGrip surround, ensures precise and controlled reproduction even at very high excursion levels.

The massive 75 mm / 3" eight-layer flat-wire voice coil and powerful motor assembly make this woofer an ideal choice for systems targeting maximum output and deep, authoritative bass. Thanks to Klippel-optimized development, a flow-optimized cast aluminum basket, and improved voice-coil cooling, performance remains impressively consistent even under the most demanding operating conditions.

KEY FEATURES

- High power subwoofer
- Klippel® optimized
- Carbon cone
- Carbon dust cap
- 75 mm / 3" 8-layer flatwire CCA voice coil
- ConeGrip surround for tight cone-guidance
- 6-layer 25 cm / 10" spider
- Airflow optimized aluminum cast basket
- Massive push terminals
- No pole ventilation – improved voice coil cooling

CONTENTS

- 1 Piece GZPW 18C

FACTS

| | |
|----------------------|-----------------|
| Model | GZPW 18C |
| Nominal impedance | 2 x 1 Ω |
| Efficiency (SPL) | 88 dB |
| Voicecoil | 75 mm / 3" |
| Power handling (RMS) | 6000 W |
| Cone | Carbon |
| Xmax (p2p) | 80 mm / 3.15" |
| Outer diameter | 465 mm / 18.3" |
| Mounting cutout | 428 mm / 16.85" |
| Mounting depth | 310 mm / 12.2" |
