PRODUCT OVERVIEW

16.5 cm / 6.5" vented SPL subwoofer loaded enclosure

Built for punchy bass and high efficiency, the GZRB 16SPL-EXTREME is the ideal choice for listeners who want strong low-frequency performance from a compact vented enclosure. The combination of a solid MDF cabinet, efficient bass tunnel, and powerful 6.5" subwoofer delivers dynamic bass with impressive impact. With its reinforced paper cone, protective bars, and flexible wiring options, it is engineered for everyday use and SPL-oriented setups alike.

KEY FEATURES

- Vented SPL subwoofer
- Efficient aero bass tunnel
- High-power 6.5" subwoofer
- Reinforced paper cone
- Solid protective bars
